Pack Sizes	216g

## Veterinary Curabine® Dressing

### General Description

A high quality, highly absorbent combine dressing with a non-woven, low adherent, tubular, soft cover.

#### Features and Benefits:

- Soft, non-woven gauze covering an even firm cotton wool layer.
- Non-stick and highly absorbent.
- The absorbent cushioning protects the wound site to further prevent disruption and irritation.

#### Directions for Use

Veterinary Curabine Dressing can be cut easily to any required size or width. Secure dressing with a high quality cohesive or adhesive bandage such as ValuWRAP or ValuPLAST. Take care not to bandage legs too tightly. Make sure that when wrapping legs to apply even pressure to avoid folds and uneven overlap of dressing under bandage, especially on known pressure points.

#### Recommended Uses

For use where medical application is needed, either over dressings or support wraps .

- Can be autoclaved.
- Suitable to use for protection padding of wounds and injuries.
- Can be used as protection, support and insulation for horses during exercise, competition or travelling.

Physical Characteristics:	20cm x 10m
Pack Sizes	600g roll

## Equitex®

### Medicated Poultice Dressing for Horses

Equitex® is an easy to use, non sterile, all purpose medicated poultice dressing which can be used as a hot, cold or dry dressing.

<b>Active Constituents</b>	<b>Per g</b>
Boric Acid	60mg
<b>Physical Characteristics:</b>	20cm x 40cm multi-layered poultice
<b>Pack Sizes</b>	Single 44g Available in a display box of 10
<b>Storage:</b>	Store below 30°C

### Features and Benefits:

- Multi-layered wound and poultice dressing.
- High quality cotton dressing with a non woven gauze covering and a plastic cover on the reverse side.
- Non abrasive cover, making it gentler on the skin.
- Extensively trialed with leading equine veterinarians, horse trainers and horse studs.
- Retains shape when wet (will not stretch or fall apart).
- Also contains Tragacanth.
- Each dressing is individually packaged.
- Can be used for splints, sore shins, sprains and bruises.
- Relieves and prevents swelling.
- For external use only.

### Precautions:

- Equitex® should not be used in conjunction with any other medical preparations except on the advice of a veterinarian.
- Consult a veterinarian before applying the poultice to infected wounds.
- Ensure the bandage is not applied too tightly and that the poultice is not too hot.

## ValuPLAST®

Elastic adhesive bandage for large and small animals.

### General Description

A heavyweight adhesive elastic bandage

### Features and Benefits:

- Great elasticity and adhesion.
- User friendly - plastic lipped core ensures ease of use and no product wastage.
- Each roll is individually wrapped.
- Available in 3 widths - 5cm, 7.5cm and 10cm
- Yellow centre line- Permits accurate overlap during application
- Latex free.
- Porous adhesive- Allows skin to breath.

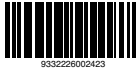

### Recommended Uses

For use where medical application is needed, either over dressings or support wraps.

<b>Physical Characteristics:</b>	4.5m (stretched)
<b>Pack Sizes</b>	5cm x 4.5m, 7.5cm x 4.5m, 10cm x 4.5m All sizes available in single rolls or display box of 12
